

RingCentral Call Controller™ for Salesforce beta

Get RingCentral calling capabilities right from your Salesforce account.

The RingCentral Call Controller for Salesforce is a powerful new tool that seamlessly integrates RingCentral call management features directly into your Salesforce account.

Install the Call Controller and start using RingCentral from any page within Salesforce.

Use the RingCentral Call Controller to:

- Call your Salesforce contacts—no dialing needed.
- Manage your calls and voicemail right from Salesforce.
- Set up Do Not Disturb rules directly from the app and be more productive.
- Send text-to-speech messages to callers with just a few clicks—use default messages or create your own.
- Automatically sync call history with your Salesforce contacts.

How do I get the RingCentral Call Controller?

Install the RingCentral Call Controller for FREE with RingCentral Office. Purchase RingCentral Office online in just minutes, or contact sales to customize a package tailored to your business' needs. You'll get a low monthly rate and instant activation—no setup fees, no contracts required.
